

# Environmental POLICY STATEMENT

## Environmental Policy

- It is our policy to recognise and act on the need to protect the environment for ourselves and others
- We will conduct business in ways which reduces stress on the environment and where practicable minimises waste of energy and maximise opportunities for the recycling of materials.
- We actively promote recycling though out all of our locations and are involved in programs internally, and schemes with our customers that benefit a number of charitable organisations.
- As a minimum, we will comply with the environmental legislation applicable to the products & services that we supply.

This policy will be reviewed and revised annually, or when necessary if sooner, and will be brought to the attention of all employees.
